

GYM

Whilst 14-17 members are permitted to use the gym during their access hours, there are some restrictions:

- All 14-17 must under-go an induction before using the gym for the first time.
- 14-15 year-olds can only use the first floor of the gym.
- 16-17 year-olds are able to use the cable-weights on the ground floor, but cannot use the free-weights.

*** Remember, Functional Training classes are available; ask a gym instructor for more details. ***

Learning to use the gym correctly and efficiently is crucial for ensuring a healthy lifestyle. In addition to building muscle and improving fitness, exercise can provide stress relief from school and college, help generate a routine and structure for one's life, and be a great way for families to bond.
